

# MOHAMAD FAIZ IRFAN BIN MOHAMAD ZAID

Software Developer

+601156329034 | faizirfan2608@gmail.com | [Portfolio](#)

## PROFILE

Software Developer with proven experience building scalable web and mobile applications using Angular, Ionic, TypeScript, and NestJS. Skilled in comprehensive UI/UX implementation, seamless API integration, and delivering production-ready solutions across the healthcare, logistics, and smart-retail sectors.

## TECHNICAL SKILLS

|                        |                                                     |
|------------------------|-----------------------------------------------------|
| Languages              | : JavaScript, TypeScript, HTML5, CSS3, SQL          |
| Frameworks & Libraries | : Angular, Ionic Framework, NestJS, Next.js, RxJS   |
| Database               | : MySQL, Firebase (Cloud Firestore)                 |
| Tools                  | : Git, Android Studio, VS Code, Stitch, Antigravity |

## PROFESSIONAL EXPERIENCE

**BugzStudio Sdn Bhd | Bukit Tinggi, Klang**

Software Developer | October 2025 – July 2026

- Spearhead the frontend architecture and development of scalable web and mobile applications using Angular, Ionic, and NestJS.
- Diagnose and resolve complex performance bottlenecks, optimizing frontend data flow and API integrations to maintain strict production standards.
- **Rest N Go (RNG) Mobile App & Admin Portal:**
  - Led the UI/UX redesign and implementation of core mobile features, integrating hardware-level QR scanners and dynamic digital membership passes.
  - Refined the wallet management interface by modifying existing data mapping functions to accurately calculate and display internal app credits, eliminating currency display inaccuracies.
  - Engineered a robust Angular-based admin portal for centralized promotion and news management.
- **Ekajaya Cement Distribution Platform:**
  - Architected core frontend modules to support massive-scale order processing and customer management workflows.
  - Implemented complex data tables and dynamic document generation modules utilizing Stimulsoft for specialized reporting and printing.
- **UMSC Q-Care & Doctor Portal:**
  - Developed patient-facing application modules and secure doctor-facing dashboards, seamlessly integrating frontend interfaces with highly regulated healthcare backends.
  - Built a comprehensive insurance Q&A module, improving platform utility and patient appointment workflows.

## EDUCATION

**UNIVERSITY MALAYSIA PAHANG AL-SULTAN ABDULLAH (UMPSA)**

**| 2021 – 2025**

Bachelor of Computer Science (Software Engineering) with Honours
