

MOHAMAD FAIZ IRFAN BIN MOHAMAD ZAID

+601156329034 | faizirfan2608@gmail.com | Software Developer | [Portfolio](#)

PROFILE

Software Developer experienced in building and maintaining web and mobile applications using Angular, Ionic, TypeScript, and NestJS. Skilled in frontend development, API integration, troubleshooting, AI-assisted development, and IT hardware support.

TECHNICAL SKILLS

Languages	: JavaScript, TypeScript, Python, HTML5, CSS3, SQL, PHP
Frameworks	: Angular, Ionic, NestJS, Next.js, Laravel, RxJS
Database	: MySQL, PostgreSQL, Firebase
Tools	: Git, Android Studio, Figma
AI/ML	: TensorFlow, Computer Vision, CNN, ResNet50
IT/Hardware	: PC/Laptop Troubleshooting, Hardware Diagnosis, Hardware Upgrades, Windows Installation

PROFESSIONAL EXPERIENCE

BUGZSTUDIO SDN BHD – Bukit Tinggi, Klang

Software Developer | October 2025 – July 2026

- Developed and maintained scalable web and mobile applications using Angular, Ionic, TypeScript, and NestJS.
- Diagnosed and resolved frontend performance issues while optimizing data flow and API integrations for production applications.
- Redesigned core features for the Rest N Go (RNG) Mobile App, including QR scanner integration, digital membership passes, and wallet credit management.
- Developed an Angular admin portal for centralized promotion and news management.
- Developed frontend modules and backend APIs for the EKAJAYA Cement Distribution Platform, supporting order processing, customer management, data tables, and Stimulsoft reporting.
- Developed patient-facing modules and doctor dashboards for UMSC Q-Care & Doctor Portal, integrating frontend interfaces with healthcare backend systems.
- Built an AI-assisted development and testing workflow using OpenClaw and Telegram to automate website testing, identify potential bugs, and communicate test results.

STEALTHX PERFORMANCE SDN BHD – Petaling Jaya

Web Developer Intern | March 2025 – August 2025

- Designed and developed a full-stack car workshop and dyno booking platform with an integrated admin dashboard using Next.js, Laravel, TypeScript, and MySQL.
- Built online booking, service catalogue, dyno scheduling, and appointment management workflows.
- Replaced manual phone-based bookings with a structured online system, reducing booking errors by 80% and administrative workload by 90%.

ADDITIONAL EXPERIENCE & PROJECTS

FREELANCE IT & HARDWARE SUPPORT

Independent | 2024 – Present

- Provided PC and laptop troubleshooting, hardware diagnosis, and general technical support.
- Performed Windows installation, system configuration, driver installation, and software troubleshooting.
- Assisted with hardware upgrades, component replacement, and general PC/laptop maintenance.
- Diagnosed issues involving storage, RAM, thermals, graphics, peripherals, and system performance.

FINAL YEAR PROJECT — HEAVY VEHICLE CLASSIFICATION

Machine Learning Research / UMPSA / 2025

- Developed a ResNet50-based CNN using Python and TensorFlow to classify heavy vehicles by size from side-view images.
- Applied computer vision and machine learning techniques to real-world roadside vehicle images.

EDUCATION

UNIVERSITY MALAYSIA PAHANG AL-SULTAN ABDULLAH (UMPSA)

| 2021 – 2025

Bachelor of Computer Science (Software Engineering) with Honours
